

At Unilabs, our mission is to support effective therapeutic decision-making by providing accurate, reliable analytical results using methods that are routinely reviewed and validated. Both management and staff are dedicated to complying with ISO 15189:2022 and ISO/IEC 17025:2017 standards, as well as to all applicable legal and regulatory requirements, including IVDR/ODiv, the General Data Protection Regulation (GDPR), the Swiss Federal Act on Data Protection (FADP), and all other relevant laws governing our activities.

Our Quality Management System ensures that we:

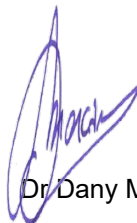

- Place the patients and their health at the core of every decision, offering efficient, tailored services that meet their needs and expectations.
- Fulfill the highest expectations of our patients and clients through continuous system improvement and proactive risk management.
- Maintain good professional practices through ongoing staff development and the implementation of advanced technologies.
- Uphold ethical and impartial conduct, in line with our “Code of Business Principles” and “Impartiality statement,” and ensure full compliance with professional ethics, medical confidentiality, and data protection.
- Foster a secure, safe and suitable working environment across all our activities.

**Unilabs: Committed to Quality**
